GOLDTHORPE BULL ACCEPT "CO-OP" OFFERED IN SALE FRUIT MARKETING

Prize Sire Is Consigned to Rock County Holstein Auction.

Farm Bureau Backing National Co-Operative Sales Policy.

One of the features of the Rock county Holstein sale to be held in the fair grounds pavilion, Janesville, Oct. 31, will be the sale of the Goldthorpe bull, owned by John Goldthorpe, one of the best Holstein show bulls in southern Wisconsin. How the Goldthorpe bull is coming five years, was grand champion at the 1921 Janesville fair, grand champion of the county fair and a winner at the Dano county fair.

The bull is not in the sale catalogue for the owner did not decide to place him in the catalogue until this week. A bull calf, sired by this bull, topped the recent Lake Mills sale for \$500.

The dam of Howitz Korndyke Vale, a Howitz Vale bull, with a record of 23.50 pounds of butter and 658 pounds of milk in seven days, and his four nearest dams average more than 50 pounds. This sire is a 21 pound grandson of Sir Yearling Hensgrove.

Good Sale Offering
Seventy-one head are to be offered at the Rock county sale held in connection with the southern Wisconsin route. There are many high record animals and winners at the recent fairs in the consignment. J. E. Mack, R. L. Hager and W. T. Deely will be the auctioneers.

The consignment to the Rock county sale are as follows: Ernest E. Patis, J. J. Bemis, E. L. Benedict, Frank W. Barr, Ray Boyd, Craighurst Farms, W. W. Crockett, J. Cullen, John Fisher, Fisher Stock Farms, John Goldthorpe, D. Hill, W. T. Hunt, R. V. Harley, J. W. Jones, McMillan Kimball, Kraft & Perrygo, Rudolph Logan, A. A. McGinnis, Fred W. Moore, J. W. Robins, S. P. Saunders, John Wehinger & Son, Howard Wentworth, Henry Wieland & Son, and Theodore Wolf estate.

Association Work
The sale committee is composed of John W. Jones, secretary; E. L. Benedict, John L. Fisher, Fred Gaarder and Henry Wieland.

The offering includes nine bulls of serviceable age, 24 cows, 23 calf heifers and yearlings and 10 senior heifer calves.

An active program has been carried through this year by the Rock county Holstein association having a membership of 112 farmers. The association is directly responsible for bringing the Holstein interest of Rock county to a prominent position. This is the second sale in the county. The successful sale was promoted by the association, which also took a leading part in the building of the new livestock pavilion, aided in the purchased sire campaign, put on an excellent Holstein show at the fair in Rock county and for the first time sent out a representative show herd to the state fair that made a creditable showing. In addition Rock county joined with Walworth county in a Holstein rally picnic.

To wind up the year's activities the Rock county association is planning for a demonstration at the annual meeting in December, at which time the 1923 program will be discussed. There is no denial of the fact that Rock county is being brought to its deserved top notch position in regard to Holsteins by the county association. Considering that the new organization has been under way for only a year, the association has blazed a clear path for Holstein success in Rock county.

Lower Rail Rates Demands Wallace in Ohio Address

"Freight rates on farm crops and livestock must come down. With present prices for his crops and with probable prices for the next year or so the farmer simply cannot afford to pay the present rates. They are all out of proportion to the pay he gets for what he grows." This is the way Henry C. Wallace, Secretary of Agriculture, summarized the situation while talking at Washington Court House, Ohio. His address was an exposition of the actions of Congress which are of particular interest to farmers.

The urgent demand by farmers for large reductions in freight rates have led some people to think that if the farmers could have their way they would put rates so low that the roads could not possibly operate," said Mr. Wallace. "Nothing could be further from the truth. The farmer is almost wholly dependent on the railroads for the movement of his surplus crops and live stock."

Miles Will Send Car Fat Lambs For Chicago Show

W. G. Miles, Evansville, announces that he will send a car load lot of fat lambs and a number of breeding sheep to the fair at the Rock county exhibit at the Chicago International livestock exhibit. Last year Miles won the car load lot prize.

Will Show Ribbons Won in Evansville

Ribbons won on Rock county livestock at the 1922 fair will be shown in the Grange store, Evansville, during the coming week. The ribbons have already been displayed in Janesville and Polk and following display in Evansville will be taken to another Rock county city. The display represents the largest amount of fair ribbons won by any county on cattle, sheep and swine at the state fair.

Hurry Pavilion For Green County Sale

Doubt is expressed whether the new Green county pavilion will be completed in time for the semi-annual sale to be held in Monroe November.

Light For The Lonesome!

Is the old axiom that the busy modern city is the loneliest of all places for the stranger, about to become obsolete? Let's hope so. At least, several cities have made a start toward making hospitality a personal matter.

"Lonesome Bureaus" have been created to relieve the hunger for companionship on the part of the stranger within the gates. You just call the office and somebody immediately becomes your host!

One of the most enjoyable features of store-keeping is the constant flow of friendly human contacts it affords. We never get lonesome!

LOWER BARBERING COSTS ARE SOUGHT

Green Bay Citizens on Trail of Cheaper Haircuts and Shaves.

Green Bay—Citizens here are raising the question whether barbers, organized to hold the price of a shave and haircut to a standard figure are a combination in restraint of trade and liable for prosecution under the Sherman Anti-Trust act. According to a communication in the Green Bay Press Gazette, there are many people in the city who think so; and, furthermore, the note adds, prosecution will be started to break up the alleged combination in order to give the barbers of Green Bay lower prices.

A survey of the prices charged by local barbers indicates that they are standard with the exception of a few who are not members of the local craft. The charge for a haircut is 50 cents while one can be shaved for half that amount.

The local communication has not passed without being questioned. The barbers have their side of the issue and they blame the safety razor. This instrument has enabled hundreds of men, who formerly patronized barber shops to shave themselves, thus making the tonsorial artisans rely on the haircut for a livelihood.

"With the safety razor being perfected," said the chairman of the local craft, "it is only the transient man with a tough beard or the man who hasn't the mechanical skill who comes to us nowadays. We must rely on haircuts to keep us in business and are not making an exorbitant profit."

Blues Out to Stage Comeback Against Racine Warriors

WARFIELD WORKS HARD TO REMAKE CRIPPLED SQUAD

Busy Man's Sport Page

By FRANK SINGLAI

SOME hunters not only are poor sportsmen, but they are hogs. Reference is made to those hunters, or rather "men" who fail to comply with the game laws and kill more than their fair limit of five rabbits daily. One fellow bragged on Wednesday that he had shot 10. Another fellow he had snared the last of 10, several of them before the season opened.

FELLOWS of that character are a detriment to sport. They are a snarl in the way of game conservation. They are too selfish to understand the wrong they are doing. The lesson to teach them is that it could be done—would be to change them into rabbits and to let them live out of them.

JOHN NICHOLS, former mayor of Janesville and one of those who placed harness racing on its feet in this city, is out to put Sheboygan on the harness map. The new plant of Nichols, started first to train his own horses, is now being built at the "extension of the North" here. There is only one track in the state that exalts that at Janesville, and that is at Milwaukee. Nichols intends to put his boys in the running for the same honors.

PLENTY of sparks are flying between the Kenosha Simms and the Racine Warriors over the withdrawal of the Fairbanks-Morse outfit from the state professional baseball championship series. The Kenosha team, which was the favorite to win the series, has been defeated by the Racine team. The Kenosha team is now in a state of confusion and is looking for a new manager. Whitewater Plan's Big Homecoming Event on Nov. 4

(By Gazette Correspondent.)

Whitewater, Wis., normal school is planning the first homecoming football event here in years. The Milwaukee normal school football game Nov. 4, has been selected as the appropriate game for the event.

Invitations will be sent to all alumni ex-students and friends, to attend the home coming Nov. 3 and 4. The program, as planned, commences Friday with a bonfire and rally on the normal campus grounds at 7 p. m. Saturday morning from 9 to 12, the faculty will be "at home" to all visitors in the lecture hall on the campus just back of the main building. At 1 p. m., a student parade from the campus to the down town section and back is planned.

The game is scheduled for 2:30 p. m. on Hamilton field. Whitewater won from Marquette Academy, 9-6; from De Kalb, Ill., normal, 20-6; and tied Oshkosh normal 9-9. The final event of the homecoming celebration will be a party at the men's gym at 8 p. m.

"Forget-Me-Not" Day, Nov. 4.

BRINGING UP FATHER

Five Games of Importance on Saturday "Prep" Card

Four high school teams with state championship hopes do battle Saturday in southern Wisconsin. They are Edgerton, Port Koshong, Beloit and Monroe. The strongest of these are Edgerton and Port, both undefeated. These are in addition to Janesville's game.

With four straight victories, one of them over the reigning Monroe eleven, Edgerton faces Wisconsin high at Camp Randall field. The University "preps" are likewise undefeated, but the Tobacco city has faced sturdier teams. It has shown more aggressiveness, is more versed in football and has far more experience.

Port Should Win.

Port Koshong is lined up with Waterloo. The Port has piled up 213 points in four games and has been scored upon but once, that by Jefferson through carelessness. The premier Jefferson county team is well on the way to going through the season without a loss, due to a force offensive and a strong defensive.

While Monroe has piled up 223 points, more than any other team in

team which Elkhorn held to a scoreless tie.

Lake Geneva, with two scoreless ties, a 6-0 defeat and a 7-0 victory takes on the fast West Allis outfit, and will have to play a smashing game to win. Stoughton, a strong aggregation, is out to clean up Columbus, and it looks as if the Hub city will do it.

State Title Aspirants.

Lake Mills, a hard team to dope, is set to entertain Cambridge. The Lake has defeated Whitewater city, 46 to 0, while Cambridge trimmed that team, 6 to 0.

Northwestern Military and Naval Academy, Lake Geneva, plays its second game of the season, meeting Riverside high. The cadets are a strong aggregation, having strong prospects of defeating the Milwaukee school.

Edgerton Grid.

Team vs Stoughton at Hub City Fete

Stoughton's "up and at 'em" American legion post will entertain all this section at the Hub city next Tuesday. Sports are uppermost.

The star attraction will be a football game between the Stoughton and Edgerton teams of the American legion. Stoughton has been playing good ball, while the Tobacco city, although just getting started, promises a real battle.

Other attractions will be a soccer match between the International and the Chinese of the University of Wisconsin, a horse shoe pitching tournament, a balloon ascension by a woman, novelty races, and a sham battle by crack Company L of Stoughton.

A Talloween harvest ball will be held in the evening.

Tigers Reach Battle Ground for Chi Fight

Chicago—Old Grads of Princeton arrived here Friday to greet the Tigers who came out of the east to meet Chicago Saturday in one of the great football games of history.

Sons of old Nassau from all sections of the country met at Princeton headquarters at an upstairs hotel where preparations had been made for a rousing reception for the team and the several hundred rooters accompanying the players.

Each team were in top form for the important struggle which will mark the first appearance of a Princeton team on Stagg field.

Coach Stagg put the Maroons through a light drill Friday to polish up new plays held in reserve. On the eve of battle the "Old man" announced the selection of Otto Strommer, one of the most versatile players developed in Chicago, in years as pilot for Saturday's game.

The program for the Princeton team after the reception called for light practice Friday afternoon. Both Stagg field and the Northwestern university gridiron were offered to Coach Roper for practice.

Coach Roper has put in a strenuous week perfecting an attack with which he hopes to remove the sting of last year's 9 to 0 defeat at the hands of the Maroons.

THREE BIG CONFERENCE GAMES COME SATURDAY

Chicago—Although the Chicago-

Princeton game overshadows all other football contests in the country Saturday, three important games will be played between conference teams. Illinois meets Michigan at Ann Arbor, Ohio State plays Minnesota at Minneapolis and Purdue tackles Iowa on the Hawkeye field. Indiana plays the Michigan Aggies while the remaining two teams of the Big Ten, Northwestern and Wisconsin remain idle.

OBJECTS TO "silent treatment." Mrs. Myrna L. Magee, who alleges in her divorce suit against Glenn G. Magee, below, that he refused to answer her questions and also "treated her rough."

VOICE OF THE PEOPLE

SECOND WIFE IN SUIT FOR DIVORCE

Asks Separation from Glenn Magee Now in Los Angeles, Calif.

It took Myrna L. Magee, two years and nine days to find she was married to a gay Lothario, according to her divorce bill filed this month in the Los Angeles, Cal., courts.

The person to whom she refers as the gay Lothario is Glenn G. Magee, son of Mr. and Mrs. George Magee, of Evansville and former manager of the Evansville opera house owned by his father. Magee left Evansville three years ago for Long Beach, Cal., where he has since lived.

Mrs. Magee does not aspire to be a Lothario's bride. Neither does she crave "silent treatment." And the husband's motto she declares seemed to be "treat them rough and tell 'em nothing."

So she sued Glenn Magee alleging "gross bodily injury and mental suffering."

This most fascinating occupation, the complaint states, was "keeping

NEW LAMP BURNS 94% AIR

Beats Electric or Gas.

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to all ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal-oil).

The inventor, Dr. D. Johnson, 608 W. Lake St., Chicago, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency and without experience or money make \$250 to \$500 per month.

company with other women until late hours of the night and driving them around in his automobile to the beach resorts."

He habitually stayed out late and when she questioned him, he gave her violent treatment. He gave her a black eye and a bruise on the wrist, and left a bruise. Again he used violent and abusive language calling her names "too profane to mention in this complaint."

They were married Oct. 2, 1920 and separated Oct. 2, 1922. The complaint alleges that Magee has money in the bank and owns an automobile. The wife asks a restraining order to prevent him from disposing of this property, alleging it is jointly owned.

The woman who makes Magee the defendant in the action for divorce is his second wife, records of the Rock county circuit court show that he was granted an uncontested divorce from Lottie G. Magee, July 17, 1917 by Judge Grimm. He was manager of the Evansville Opera House at that time and was living in Chicago.

Magee charged his wife instituted a course of cruel and inhuman treatment, stating among other things that she persisted in working in a store, and that six months prior to the commencement of his divorce action she had refused to cook his meals, that she had charged him with infidelity without grounds and that she had finally ejected him from the house.

In granting him a divorce, Judge Grimm ordered him to pay \$25 a month for the support of the child now 13 years old, and within 10 years from that time to pay the wife \$2,500, as settlement of property rights. His first wife now lives in Evansville.

I. W. W. Invasion Order Cancelled

INCREASE MARKET FOR BADGER GOODS

Exposition to Do Much Good in Advertising Badger Products.

After a conference with Professor R. A. Moore, head of the department of agriculture, of the Wisconsin college of agriculture, believes that the Wisconsin Products exposition to be held in Milwaukee Dec. 14 to 23 can be made the beginning of a great movement which will make Badger quality products known and demanded throughout the nation and world.

Prof. Moore in a statement given out at exposition headquarters after recalling the beginning of the pure bred and pedigreed seed movement, said:

"We early incorporated the phrase 'Grown in Wisconsin' in our trademark with the hope that we could make the state name synonymous with the highest quality and fair price for the pure bred and pedigreed goods sold under the association trade mark. Our success in this effort has far exceeded our expectations and has rebounded to our great benefit, for now purchasers or users of goods in every section of the country and in a large part of the continent have come to know Wisconsin as the home of pure bred seeds, and whenever the name of our state is mentioned it is another reminder in our favor."

"There is no reason why this idea should not be extended to include every product made or grown in our great state and if this idea is carried out successfully the benefit to our agriculture and our industries will be incalculable."

"The purchasing public is continually searching for a source of supply in which it can place absolute confidence for top quality and square dealing and if the organized industries of our state will combine to inspire this confidence in the purchasing public the weight of the combined efforts will be irresistible."

"I hope that through the Wisconsin Products exposition we can accomplish this objective. With proper support from the various agricultural and manufacturing interests of the state we should be able to make a strong start in this direction and the vision of what may follow in years to come is inspiring enough to promote our most earnest efforts to make this first Wisconsin Products exposition an outstanding success."

98 Out of Every 100 Women Benefited

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

Replies, to date, have been received from over 50,000 women answering that question.

98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.

This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.

Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100. Did you ever hear of anything like it? We must admit that we, ourselves, are astonished.

Of course we know that our medicine does benefit the large majority of women who take it. But that only two out of 100 received no benefit is most astonishing.

It only goes to prove, however, that a medicine specialized for certain definite ailments—not a cure-all—one that is made by the most scientific process; not from drugs, but from a combination of nature's roots and herbs, can and does do more good than hastily prepared prescriptions.

You see, we have been making, improving and refining this medicine for over 50 years until it is so perfect and so well adapted to women's needs that it actually has the virtue to benefit 98 out of every 100 women who take it.

It's reliability and recognized efficiency has gained for it a sale in almost every country in the world—leading all others.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98 THE LYDIA E. PINKHAM MEDICINE CO., Lynn, Mass.

Editorial:

This is the question that has addressed itself to the people of these parts ever since the sad news of the death of Rolla Sayre of Milton came to our ears. No one has dared to ask the question openly though for fear of something, they hardly know what. But it is a fact all the same that some body is responsible, morally responsible for this untimely death. And it is high time that the responsibility should be placed where it belongs, so that those who are to blame may not be able to shift it, but be made to bare the shame and disgrace of such outrages; not only as relates to Milton College, but every other such institution.

Let us take a fair and square look at the case as it is. And let us not be blinded nor biased by the expressions of regard for the deceased and of sympathy and pity for the benefit on the part of those who may be trying to shift the blame. And what we find to be true touching Milton College, its trustees and faculty, may we not apply to every other such institution?

The trustees have the whole institution of Milton College in charge. They look after the property, hire the teachers, and pay the bills. And if you have a legal case with Milton College, they are the parties you will have to meet in the courts. But the management of the college is left almost exclusively to the faculty for the simple and obvious reason that (up to the present time) their judgment could be trusted, and the management of the institution has been fairly satisfactory. But if some one should take a case like this, for instance, into the courts the trustees would have to pay, though morally they are not to blame unless it be for trusting their hirelings too implicitly. The faculty however are morally to blame, for it was their conduct that made the disaster possible. It was their management, the "class scrap" had their sanction and approval. They had rules, they sent a representative to the young man himself, saying "we should have stopped as soon as he was hurt, and have gone to the hospital, and thus saved his life." This is pure drift, and an effort to shift responsibility.

And who know Rolla Sayre know that he was a true sport in all his athletic contests. It was his willingness to contribute the last ounce of his strength to bring victory to his team that made him such a favorite, and it was his sweet spirit in the face of defeat that made everybody love him. With these two valuable assets so prominent in his makeup, would Rolla ever suppose that any of his friends would expect him to quit even if quite badly injured? No, indeed! That would look weak, and he would fight until he dropped rather than show lack of courage and grit, exactly the thing which he did. And

HE CAN TURN OUT MORE WORK THAN ANYONE IN THE PLACE

And so his name appears on the increased sales list regularly. This success in business will not come to a man who is rundown, easily exhausted, nervous, and ill, but anyone can easily overcome the causes of this condition by using Korbeline—the scientifically compounded tonic made of the choicest roots and herbs selected for their distinctive medicinal values and combined by skilled chemists. Korbeline builds up the system to a state of perfect health and splendid vitality, helps to put on weight and overcome constipation, indigestion, nervousness, frequent headaches, loss of appetite, and other chronic disorders which cause that general rundown condition. The first bottle of Korbeline will produce remarkable results and a table-spoonful taken before meals regularly will keep the system in perfect condition. You can get Korbeline in your city at Smith Drug Co., McCue & Buss, W. T. Shorer.

WILL RENEW PLEA FOR P. O. ADDITION

Cunningham to Take Up Matter With Congressmen After Election.

Attention of congress will again be brought to the congestion of the local postoffice soon after election, according to plans being made by Postmaster J. J. Cunningham. Although the congestion is well known to the postal authorities, no action can be taken except through congress. The welfare director of the postoffice department has asked Mr. Cunningham for pictures showing the congestion in the local building. While notes of these were being made, he sent a number of statistics on the number of employees, the floor space, and the increase in business.

The local postoffice was built in 1904 and the business amounted to \$25,000 per year. This year's business will exceed \$125,000, done in the same amount of space as was the first amount. The business is now being handled in the old building, which is a two-story building, and the main floor is available for the city department. The quarter ending Oct. 1 saw the largest amount of business ever transacted by the local office, Mr. Cunningham said.

Congestion could easily be removed by the building of an addition to the present building. A considerable space extends back of the office to an alley, used for parking at present. Plans for an addition here were made three years ago by the Chamber of Commerce, as its endorsement of the means to relieve congestion. At that time it was felt that the plans would be accepted, then word came that due to the high cost of building the matter would be put over. With postal business increasing all through the year, the matter is now more so, and additional space for workers has become a serious problem.

Now—A Written Guarantee to Grow Hair

No Hair—No Money
is our proposition

We have a new method of treating the scalp. It grows hair. It stops falling hair. Under actual recorded tests it grew hair on 91 heads in each hundred treated.

This is to offer it to you. Results are guaranteed. If we fail, it costs you nothing. Your own druggist signs the guarantee—we assume the risk.

The name is the Van Ess Liquid Scalp Massage.

Infected Sebum

According to authorities, over 90 per cent of all hair troubles are traced to infected sebum.

Sebum is an oil. It forms at the roots of hair. Its natural function is to supply the hair with oil.

But frequently it becomes infected. It clogs the scalp. It plugs the follicles and chokes them. It forms a breeding place for bacteria. It poisons the millions of cells upon the hair and scalp.

It invites scabiness. Soon total baldness follows. But it seldom kills the hair root. Remove the infected sebum.

Obtain it at your druggist's under 3-bottle treatment plan. Your money returned if results are not obtained.

Now Science Overcomes It

The Van Ess treatment combats the infected sebum and removes it. It penetrates to the follicles of the hair. It removes dormant hair roots and generally grows new hair. We guarantee it.

Obtain it at your druggist's under 3-bottle treatment plan. Your money returned if results are not obtained.

VOTERS TO PASS ON AMENDMENTS

Referendum on Three Important Questions, Part of Election Nov. 7.

While what little interest there is in the general election, November 7, naturally centers about the contests between individual candidates for state and county offices. Considerable importance is attached to the referendum on three proposed amendments to the state constitution. All three amendments have been approved by the 1919 and 1921 legislatures and are now ready to be acted upon by the voters at large.

The first one is an amendment to give the legislature power to provide by law that in civil cases only the votes of a specified number of the jury less than all, but not less than five-sixths, shall be sufficient for a valid verdict. Under present statutes, a verdict in both criminal and civil cases must be based on the votes of all the members of the jury in order to be valid. The proposed amendment would not change the status of jury verdicts in criminal cases.

The second proposed amendment would, if passed, give sheriffs the right to succeed themselves in office at the end of their 2-year terms. At present, sheriffs in office are ineligible to hold the office of sheriff for two years next succeeding the termination of their terms.

The third amendment coming up for referendum vote would give cities power to become indebted an additional five percent on their assessed valuation in order to provide money for the purchase of public utilities. The debt limit for cities is now five percent.

Success---

Success these days comes through service. The better we serve the greater our success!

Seven years ago there was but one Leath store—today there is fourteen. There's a reason for such success. It is: honest, satisfying service to home-makers—really beautiful furniture, the better kind, built for comfort and sold at prices no higher than for the ordinary kind; gentlemanly salesmen, specially trained in the art of home furnishing, to assist in selection.

Customers fully satisfied by Leath service have directed our progress; they have been our greatest advertising medium. That's why we are growing every day—why we are in the short space of seven years, one of America's greatest home-furnishing institutions.

GERMAN VEST BRINGS PRICE OF 20 SUITS IN PRE-WAR TIMES

Referring to the only thing that can be bought in Germany today for one mark is a wire nail.

Referring to the only thing that can be bought in Germany today for one mark is a wire nail. "Under the present quality standards of production," remarks a native pessimist, "the nail may or may not be strong enough to hang one's self on after he has looked over the other increases in prices."

Before the war a thousand marks would pay for twenty suits of clothes. Today that sum will purchase a vest. A good photo could be bought then for 500 marks, a sum now required for a pair of boys shoes. Five hundred pre-war marks sufficed to build a small house, while now it scarcely buys the rent for two pairs of women's woolen stockings. Two pounds of butter can be found on the market today for 400 marks, or the pre-war price of a nickel can.

One cannot get a spoon of thread today for the former price of a sawing machine. Fifty marks once bought a lady's silk dress; now it will buy a cheap handkerchief. There was a time, some eight years ago, when one could get a bottle of champagne for what it costs now to ride on the subway. Two cigarettes are worth what a hundred of the same quality cost in 1914.

AVON

Avon—Mr. and Mrs. George Green, Aurora, Ill., have returned to their home after visiting the latter's parents, Mr. and Mrs. J. J. Kottelmann. Mrs. John Murphy and daughter spent Friday in Beloit. The Misses Margaret Kenauang and Della Kohler, Avon teachers, spent the week-end at their homes in Beloit and Janesville. Mr. and Mrs. W. E. Glessey and family motored to Albany Sunday. Miss Della Kohler is making a canvass of Avon in the interest of the Red Cross. Mr. and Mrs. Harry Kottelmann motored to Rockford and Beloit last week. Floyd Stokes and family were guests of Beloit relatives Sunday. Irvin Van Sledright returned from St. Francis hospital Sunday. He is getting along nicely. Many from here attended the funeral of Don Owen at Durand Tuesday. He died Sunday at the Mayo hospital, Rochester, Minn.

STUDENTS DROOP POLITICS

Status of Alien Women Explained by Court Officer

The new naturalization law, as amended Sept. 22, 1922, changes the citizenship status of the wives of aliens who are admitted to citizenship of the United States, reports Jesse Earle clerk of the circuit court.

Under the law as amended, the wife of an alien made a citizen of his wife must take out her citizenship papers independent of her husband, so that the government will have an opportunity of examining her also as to her fitness to assume the duties and responsibilities of citizenship. This was deemed necessary as women now have equal voting rights with men, and they should pass the same requirements and the same tests as to their ability to read and write the English language as well as to pass a reasonable examination as to their knowledge of our government and its institutions.

The law also provides that, an American born woman, married to an alien after Sept. 22, 1922, does not lose her citizenship rights as she did under the old law.

A single alien woman, or one married to an alien who is not a citizen of the United States, must comply fully with all the requirements of the naturalization law, i. e., she must have resided in the United States five years, and in the state one year, must have declared her intention to become a citizen at least two years before making the application for second papers, and must obtain a certificate showing the record of her arrival in this country; but any woman who is the wife of a naturalized citizen may obtain her second papers by proving only one year's residence in the United States, is not required to take out first papers, and need not obtain a certificate of arrival, unless she came to this country after June 29, 1906.

All alien or American born women whose husbands became naturalized before Sept. 22, 1922, and who thereby became citizens of the United States, are still citizens and are not affected by the new naturalization amendment.
